- **If breathing stop**
  Immediately apply artificial respiration, if necessary, also oxygen.

- **If Contact with skin**
  Take off immediately all contaminated clothing. Rinse skin with water/ shower.

- **In case of eye contact**
  Rinse out with plenty of water. Call in ophthalmologist. Remove contact lenses.

- **If swallowed**
  Immediately make victim drink water (two glasses at most). Consult a physician.
4.2. Most important symptoms and effects, both acute and delayed:

Development of hazardous combustion gases or vapours possible in the event of fire.

5.3. Advice for firefighters:
Special protective equipment for firefighters
Stay in danger area only with self-contained breathing apparatus.
Prevent skin contact by keeping a safe distance or by wearing suitable protective clothing.

5.4 Further Information:
Prevent fire extinguishing water from contaminating surface water or the ground water system.

SECTION 6: ACCIDENTAL RELEASE MEASURES

6.1. Personal precautions, protective equipment and emergency procedures:
